

## Knopman Video iPass (VIP)

The Video iPass (VIP) program allows you to download an entire training class onto your video iPod. It covers the same material as a live class, with the same instructor, same lectures, and a flash version of the same PowerPoint presentations – all on your video iPod. VIP can be used to substitute coming to a live class or to reinforce previously learned concepts. Watch the presentations and listen to the lectures on the go, anytime, anywhere.

The VIP includes slides to print out and take notes on as you view each presentation, as well as the instructor's contact information in case you have any questions about the material.
